

Max for Ents

I'm Max Gibson, and I'm a first year HSPS student applying for the position of Ents Rep. I think Ents is a really important part of college life. At a university with such an intense focus on work, it's crucial to find the right work-life balance. As Ents Rep, I'd be working with you and for you to help maintain this balance.

Sidney has already had some great events this year, from termly bops to the silent disco during freshers' week. First and foremost, I'd work with the bar and college on your behalf to ensure this can continue.

But not all of us can stomach shots and bops after a day sweating it out at the UL, so I'd aim to regularly provide more chilled and diverse events too. This could be quizzes, comedy, or games nights. Likewise, I'd like to push for more live music; this could be acoustic nights or individual artists. Ultimately, all suggestions would be welcomed. I believe variety is really important so that everyone can engage with Ents.

On a practical note, a combination of factors make me suitable for Ents Rep. I'm organised, plan ahead, flexible with my time, and consider myself easily approachable. Likewise, with some experience working in bars and performing at music events, I think I would really make the best of this position.

Vote Max for Ents and I will:

Organise a **variety** of events to help us **all** through term.

*

Stage these events as **often** as possible all year round.

*

Welcome **your suggestions** and **your ideas** to diversify and improve Sidney Ents.
